

January 2020

Dear Customers,

Sanko Co., Ltd.
Chemical Division

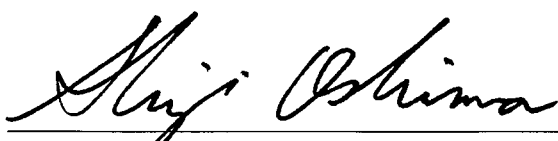

Announcement on Withdrawal of Production and Sales of P-PP

Thank you very much for your continued patronage of P-PP.

The sales of our product, P-PP, have been sluggish for a long time due to a sharp downturn in demand in addition to deterioration of profitability caused by soaring material costs. We have discussed the possibility of continued production and sales of P-PP; however, we have come to the conclusion that it is difficult to continue this since it requires a lot of investment in renewing deteriorated facilities and introducing further security measures.

For this reason, we regret to inform you that the production and sales of P-PP will be discontinued in January 2021. Until then, the quantity based on the actual quantity of previous year will be supplied.

We appreciate your using our product P-PP for a long period of time. We apologize for any inconvenience this may cause you.

Shuji Oshima
